

young.

On Friday the 17th Clearwater returned the game on the local field only to be beat still worse than on the previous Friday. At the ending of the first half we had one touch down and failed to kick goal making the score 6 to 0 in our favor. but in the third quarter they succeeded in working a short forward pass near their goal line and carried the pig skin across. They too failed to kick goal. The game went on 6 to 6 for several minutes, first one side in possession of the ball then the other. Finally we carried the ball within about 25 or 30 yards of our goal and Lindsey by a spectacular drop kick sent the ball between the bars, making the score 9 to 6 in our favor. From then on in the few minutes left to play both sides held their own.

We regret to state that only a very small crowd saw this wonderful game. Those who did witness it made the remark that it was the best game played here for years. They said it was hard fought by both teams. Several times we held them on the one or two yard line, and recovered the ball. This added that thrill and intense interest to the game that made it the game of the season. Just why more people do not turn out and enjoy such high class and clean entertainment as this we cannot understand. Football is a great game.
